

# Employee Discount Program

The goal of the Employee Discount Program is to encourage a reciprocal relationship between local business and ACA staff.

**The process:** A business offers a discount incentive for ACA staff who are identified by presenting their employee badge along with a business coupon.

**The benefits:**

1. Encourage local relationships with ACA's 700 employees
2. Help the local business community develop growing patronage
3. Exposure to Anderson constituency on the ACA website

How does a local business become involved in partnering with Anderson Center for Autism's Employee Discount Program?
